EARL LLOYD

CHIEF CLERK

WILMA LANG

Fort Bridger, Wyoming.
July 20, 1955.

To the Hon. State Engineer Of Utah.
Salt Lake City, Utah.

Burnt Fork Distribution

Dear Sir:

On June 30, 1955, I wrote to Mr. Joseph M. Tracy, State Engineer of Utah, as to how to place bill for services rendered by Louis Stoll of McKinnon, Wyoming, during June as inter-state water commissioner for the Burnt Fork District, but to date have received no reply nor has Mr. Stoll received any compensation for June services, from the State of Utah.

During a meeting held at Manila, Utah, on May 26th. of this year, where the State Of Utah was represented by Messrs. Lambert and Robert Porter, it was agreed that Mr. Stoll serve in that capacity during June, July and August of 1955 at a rate of salary of \$200.00 per month to be paid by the States of Utah and Wyoming in proportion of 30% for Utah and 70% for Wyoming.

On Monday, July 18th. Mr. Stoll informed me that he had promptly received from the State Of Wyoming the \$140.00 for June services but that he had no word from your State nor received any monies.

I have been informed that Mr. Tracy is not now serving as State Engineer of Your State, and I request that you inform us as to how we may bill, whoever or whatever department is to be contacted.

Yours very truly,

Emil C. Gradert

Emil C. Gradert.

Superintendent of Water Division No.4

cc: To Hon. L.C. Bishop. State Engineer of Wyoming.
Louis Stoll, Inter-state Water Commissioner.
